Lacombe and Bentley

Lacombe Creamery

There is just one reason why Canadian butter cannot dominate the World's Markets. That reason is "Quality" the control of which is in the hands of the cream producers. If the cream producers will patronize their local Creameries, where immediate manufacture takes place, quality, lower cost of production and consequently, Higher Prices to the Cream Producers is the result.

Always at Your Service, Highest Prices.

\$12.50 to \$15.00

PRESERVING FRUIT

Green Peppers, Pickling Onions.

SUGAR

We have sufficient sugar to allow 5 lbs. to the crate of Peaches and Prunes, and 10 lbs. to crate of Pears and Crabs.

This is your opportunity to secure your supply of fruit. Do not put off and be disappointed, Peaches, Prunes, Crabs, Grapes, Ripe and Green Tomatoes.

Dollars saved by Bovril

Bovril used in the kitchen means dollars saved in the bank. It makes nourishing hot dishes out of cold food which would otherwise be eaten. But as that you get the real thing. It's not the Bovril bottle it is the Bovril. And it is not Bovril.

LILY WHITE

Corn Syrup

For Preserving

Half Lily White and Half Sugar

You will have wonderful success with your preserves if you follow the example of the Technical Schools and replace half the sugar with LILY WHITE Corn Syrup. The initial saving in money may be small, but your jams and jellies will keep better, will have finer flavor, will be just the right consistency and will not crystallize.

LILY WHITE makes Dandy Candy

Endorsed by good housewives everywhere, LILY WHITE Corn Syrup is sold by all grocers in 2, 5, 10 and 20 lb. tins.

THE CANADA STARCH CO. LIMITED, MONTREAL

Plaque For Veterans

Ottawa.—The scroll which, with a memorial plaque, is to be issued by the British government to the next of kin of those who have fallen in the war, will shortly be distributed in Canada by the Department of Militia and Defence. It has been found impossible to issue the plaque at the same time as the scroll, owing to the necessity of building a special factory for its manufacture.

TEETHING TROUBLES

Baby's teething time is a time of worry for most mothers. Baby's little gums become swollen and tender; his bowels get out of order and constipation, colic or even diarrhoea result. To make the teething period easy, Baby's Own Tablets should be given him little and often. They soothe the gums, regulate the bowels, and keep baby cool and comfortable. Concerning them, Mrs. Marcel D. LeBlanc, Montreal, writes: "I have used Baby's Own Tablets for the past six years and have found them indispensable. To my mind, nothing is equal to them in allaying the fever accompanying teething. I would not be without them and can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Brave Pigeons Of The War

Old War-Worn Birds Have Been Pensioned Off By Government.

Feathered "veterans" of H.M. Pigeon Services are being "demobilized," and it has been decided to present them to discharged soldiers. Practically all the pigeons used by the army, navy and air force during the war, numbering 80,000, were presented gratuitously by breeders, in return for which the latter were given free supplies of grain to assist in rearing fresh "recruits."

In a few cases old war-worn birds have been pensioned off by the Government, and are now living in peace and plenty. One of these is the pigeon which was shot through the eye while delivering a message. It recovered from the wound, and is now at Westgate, "on light duty."

"The number of lives saved by pigeons during the war will never be known," said an officer, "for, in addition to the many pilots and observers who have been rescued from wrecked machines, as a result of messages faithfully delivered, the birds have been used to establish communication with troops who were surrounded by the enemy by dropping the birds from airplanes in baskets attached to parachutes."

23 THE PAIN

Farm Colony For Tubercular Veterans

To Be Established Shortly By The Soldiers' Land Settlement Board

Calgary, Alta.—A new colony for tubercular soldiers who are discharged, and who are inclined to try farming, is to be established shortly by the Soldiers' Land Settlement Board in the forest reserve of the southern Alberta foothills.

The selection of some 20 sections of suitable land in the reserve for this purpose will be made within the next week or two. The inspection of a large area from which these 20 sections will be selected is now being made by officials of the Soldiers' Land Settlement Board of Calgary. The land upon which these patients will be settled will be selected west of Claresholm, and is just for the purpose, which is to place these soldiers who have suffered from the effects of war or are of tubercular tendencies upon land where the duties and requirements will not be heavy, but where the climate is suitable to their constitutional recuperation.

The farms will not be confined to one particular area, but will be distributed over a large area. The requirements to be fulfilled by them will be placed on these farms will be light.

Cheese By Parcel Post

Ottawa, Ont.—According to Mr. P. Roy, Commissioner-General of Canada in Paris, France, Canadian cheese has been shipped to France by parcel post. It appears that while in France Mr. John F. Ryan, of Montreal, presented to a number of merchants in Paris samples of cheese which he had received by parcel post. The samples were sent to him in round 10-pound cylinders which had been dipped in paraffin and wrapped in ordinary wrapping paper. The cheese was received 34 days after it was mailed, and it is said to have arrived in excellent condition.

Many a good man bleeds shoes and many a bad one bleeds character.

GIRLS! LEMON JUICE IS A SKIN WHITENER

How to Make a Creamy Beauty Lotion for a Few Cents

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a beautiful skin whitener. It is a remarkable lemon skin beautifier at about the cost one must pay for a small jar of ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so as to remove all seeds. Every woman knows that lemon juice is useful to wash and remove sunburn, freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and add a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

Indian Veteran Sentenced London, Wm. Jordan, a full-blooded Indian, who has served in the Canadian army, was sentenced here to 10 years' penal servitude for manslaughter of a woman in Sussex, whom he brutally beat to death when in a frenzy under liquor.

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You restless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw, blood-poisoning, or even told by a medical authority to get a cure called freezings, which the moment a few drops are applied to any corn, the source is relieved and soon the entire corn, root and all, lifts out with the finger.

It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of frezoning will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn of callus.

You are further warned that cutting at a corn is a suicidal habit.

Manitoba May Build Road Winnipeg—If the Dominion government will not build a 72-mile railway to the rich nickel fields of the Pas, the Manitoba government will consider the feasibility of constructing a provincial railway. Hon. Edward Brown, provincial treasurer, intimated.

Mr. Brown stated that members of the provincial government had suggested the necessity of such a line was up to the Dominion government.

A small boy said it was impossible to judge the effect of a slipper by its size.

Do not write letters to the editor of this paper. The editor's name is not to be printed. The editor's name is not to be printed.

KNOCKS OUT PAIN THE FIRST ROUND

Comforting relief from pain makes Sloan's the World's Liniment

This famous reliever of rheumatism, aches, soreness, stiffness, painful sprains, neuralgia, pains, and other external injuries that humanity suffers from, enjoys its great success because it practically never fails to bring speedy, comforting relief.

Always ready for use, it takes little to penetrate without rubbing and produces results. Clean, refreshing. At all drug stores. 35c, 70c, \$1.00.

Keep it handy

Brazilian Property In Germany Is Safe

London, England.—A German wireless message states that it has only now become known in Germany that Brazil the South American held that Brazilian property in Germany was confiscated during the war. In contradiction of this it can be stated that such property has been neither liquidated nor subjected to compulsory control.

This is to certify that I have used MINARD'S LINIMENT in my family for years, and consider it the best remedy on the market for rheumatism, (Signed) W. S. PINCO, "Woodlands," Middlebury, N.S.

Australia's Trade With Japan Sydney, New South Wales.—Japan's exports to Australia have overtaken the imports, and there was a balance of trade in favor of Japan for 1918 to the extent of £1,826,040.

This fact was brought under the notice of the New South Wales Government by Mr. J. B. Sutor, their commercial commissioner in the east. Mr. Sutor blamed the restrictions placed on such exportations to Japan as wool for this unfavorable position, and declared that when all restrictions were removed it was highly probable that there would ensue a handsome balance of trade in Australia's favor.

"I can't think, John, where that child got his temper from!" exclaimed the mother, who was being removed screaming from the room. "No one can say it's from me."

"No one," agreed the meek voice behind the evening paper. "For you have certainly still got them."

It is wise to prevent disorder. Many causes lead to disorders of the stomach, and few are free from them. At the first manifestation that the stomach and liver are not performing their functions, a course of Parke's Vegetable Pills should be tried, and it will be found that the digestive organs will speedily resume healthy action. Laxatives and purgatives are so blended in these pills that no other preparation could be so effective as they.

U.S. To Retain Enemy Ships Washington.—Some of the seized German liners are to be retained permanently by the United States as part of the war transport service. Chief of Staff March told the House Military Committee.

President Wilson has definitely decided on the allocation of the ships, he said, but asked to be excused from discussing the plan of disposal, which would be announced soon.

Germany Prepare to Invade Poland Paris.—A dispatch received here from Stowicz, in the government of Piotrkow, Poland, asserts that a German army comprising a minimum of 200,000 men is concentrated on the frontier of Silesia ready to be thrown against Poland.

The Source of the Discontent Much of the discontent of wage workers has come of the apprehension they felt lest prices should outstrip pay. If they can be convinced that prices have halted they will feel positive relief in many cases in spite of having their pay remain what it is.—New York Sun.

A spruce young man isn't ever-green.

"Cold In the Head" is an acute attack of nasal catarrh. The mucus which is secreted from the head will build up the sinuses, cleanse the blood and render them healthy.

HAL'S CATARRH REMEDY is taken internally and acts through the blood on the mucous surfaces of the system. All Druggists sell. 25c. 50c. and \$1.00. For any case of catarrh of the nose, throat, or lungs, HAL'S CATARRH REMEDY will cure it. C. Cheney & Co., Toledo, Ohio.

There are still 1,250,000,000 British troops under arms throughout the world. That is just about five times the size of the "conspicuous little army" at the beginning of the war that the ex-bomber saw grow to such huge proportions.—Hamilton Spectator.

Role Played By Maubeuge in War

Checked Advance Of German Army With Powerful Artillery

Paris, France.—The commission appointed to examine the question of the reconquest of Maubeuge has concluded its work. The last witness, Marshal Joffre, who commanded the French armies at the opening of the war, explained that the insufficiency of the defense at Maubeuge was due to the fact that practically all credits were noted for defensive works in large eastern towns.

Marshal Joffre considered that Maubeuge, notwithstanding its defects, accomplished its role, as by its resistance it checked the advance of an important German army with powerful artillery, and thus contributed to the Marne victory. Maubeuge, which submitted to terrific bombardments, cut a fine figure, he said, beside other strongholds attacked and taken during the war.

Marshal Joffre added that he highly esteemed General Fournier and greatly appreciated his military value.

Long Standing Asthma.—Many have suffered from long from asthma and have tried many so-called remedies they think that there is no real help for them. They should read the letter written by the manufacturer of Dr. J. D. Kellogg's Asthma Remedy from hundreds of cases once so desperate as their own. Even in long-neglected cases this famous preparation brings prompt help.

Austrian Comment On Peace Treaty

Attacks Levelled Principally Against Financial and Economic Clauses

Vienna, Austria.—Commenting on the completed Austrian peace treaty, the Neue Freie Presse says:

"All of the people are to be put on the rack, prompted by the policy of draining our resources. It is the most wicked feat of the twentieth century."

The attacks on the treaty by the newspapers are levelled principally against the financial and economic clauses of the document, especially those having reference to the partition of the pre-war debt.

The Arbeiter Zeitung has characterized the terms as "bitter, spiteful and unjust," adding: "The contents is using its power in the most shameful manner to maltreat and outrage defenceless people with a peace based on might."

The Tagblatt says: "In vain do we search for a sign of justice, regard for our utter inability to fulfill our obligations, for the fundamental self-determination for peoples. It adds that the Reparation Commission must begin its work by constituting itself a revision commission."

Lumber for France Vancouver, B.C.—A total of 19,776,814 feet of lumber was shipped from British Columbia ports in August. Nearly seven and one-half millions of this amount was shipped in French vessels.

Minard's Liniment for sale everywhere. An apple a day keeps the doctor away, but, by Jinks, you have to have rattling good aim!

Certain morbid conditions must exist in the stomach and intestines to encourage worms, and they will exist as long as a large morbid condition exists in the system. To rid them and spare the child suffering, use Miller's Worm Powders. They will correct the digestive irregularities by destroying the worms, conditions favorable to worms, will disappear, and the child will be no more suffering from that cause.

Hundred Bushels To Acre Eighteen Acres Yields 1,800 Bushels of Oats on Portage Farm

Portage la Prairie, Man.—Eighteen acres of oats yielded one hundred bushels per acre on the Fulton farm at Oakdale. The land had received careful attention, but the total of 1,800 bushels was a surprise even to the producer. The oats were of the ordinary Banner variety. The land on this farm has been cropped for 40 years, and a return of this quantity indicates the marvelous soil quality of Portage Plains. The oats sold at Oakdale on car at 82 cents per bushel.

Belgium has insisted since the opening of the peace conference upon a revision of the treaty of 1839 with Holland, by which Holland annexed the southern bank of the Scheldt river and the southern portion of Dutch Limburg, between Belgium and Germany. The Belgians asked for political control of the southern bank of the Scheldt and certain economic interests in south Limburg.

A vegetarian says that his good health is the result of eating no meat and chewing it well.

WORKING AFTER SIXTY?

You surely must if you don't save when you are young. An Excellent Endowment is the best way. Write for pamphlet to-day.

THE EXCELSIOR LIFE INSURANCE CO. WINNIPEG, SASKATOON, EDMONTON, VANCOUVER

Korean Capital Occupied By Japanese Soldiers

Every Part of City Has Been Occupied By Japanese Troops

Tokyo.—Since the attempt to assassinate Baron Saito, governor of Korea, at Seoul on September 2, every part of that city has been occupied by Japanese troops and the place is virtually in a state of siege. The would-be assassin is still at large, although a number of persons suspected of being implicated in the plot are under arrest.

The Japanese press takes the view that the bomb outrage was to have been expected, pointing out that it was almost a logical development. It expresses the opinion that the appointment of a naval officer as governor of Korea was probably inopportune and the result of poor judgment, as it only served to inflame the Koreans, who had hoped that a civilian would be named. Takeshi Kato, leader of the Kokumintō, or national party, takes a similar view. He said that a civilian might have calmed the Koreans, who regard Baron Saito as a man of the sword, like his predecessors.

Cholera in Korea

Tokyo.—Special dispatches from Seoul, Korea, say that cholera is widespread, there being a hundred deaths daily in Seoul. The dispatch says an organization has been formed to combat the disease.

THE OLDEST, THE SIMPLEST, THE SAFEST AND THE BEST REMEDY FOR

Diarrhoea, Dysentery, Colic, Cramps and Pains in the Stomach, Summer Complaint, Cholera Morbus, Cholera Infantum, Sea-Sickness, and All the Natural Movements of the Bowels, is

DR. FOWLER'S Extract Of WILD STRAWBERRY

This preparation has been on the market for the past 74 years, and its reputation has become such that there have been many so-called strawberry compounds manufactured, and these have been in many cases represented as "Dr. Fowler's." Don't experiment with those no-name reputation substitutes. They may be dangerous to your health. Get a remedy that has stood the test of time, one with a reputation extending from one end of Canada to the other.

Price 35 cents. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

Negroes to Open Department Store

St. Louis, Missouri.—Negroes of St. Louis, headed by Dr. B. G. Shaw, pastor of the Metropolitan African Methodist Episcopal Zion Church of 4,000 members, are now organizing a department store company with a large capital stock. The undertaking is to be financed, owned and managed by negroes and will be established in the negro community centre of the city. A large percentage of the \$100,000 capital stock to be used has been paid in, and the stock is to be increased to about \$200,000 before the store is opened early in 1920.

Labor Party Meets in October

Winnipeg.—An open convention of the Dominion Labor party will be held in Winnipeg early in October. Plans will be perfected there for the civic elections, which take place in November. The Labor party will test its strength in the fight for civic honors. It is understood that the members of it will nominate candidates for both the provincial and federal constituencies when the time is opportune.

It is more difficult for some men to collect their wits than their bills.

SEE IT FIRST! IT'S ON CLARK'S PORK AND BEANS AND IS A GOVERNMENT GUARANTEE OF PURITY

Gift of Old Watches Melbourne, Victoria.—Auckland (New Zealand) Museum has received a valuable collection of ancient hand-made watches, some dating back to 1750, and including two beautifully enamelled specimens. While the watches come direct from the Victoria and Albert Museum, Kensington, England, the real donor was Evan Roberts, of Sheffield, who presented 1,500 antique watches to the museum in Kensington, with the proviso that all watches not required by that institution must be divided among the Auckland and other specified museums.

Socialists Ask Noke To Resign Berlin, Germany.—The Vorwärts learns from Brechtel that at a meeting of the Majority Socialist Party in that city a strong demand was made for the resignation of Dr. Gustav Noke, the Minister of Defense, on the chairmanship of the party on the ground that he is a monarchist.

Reaction in Opposition to the President's reaction. The matter was adjourned for further consideration.

Carranza Will Retire Mexico City.—"Venustiano Carranza under no circumstances will seek re-election as President of Mexico, and without fail will turn the Presidency over to his successor on completing his present term in December, 1920." Luis Cabrera, Secretary of the Treasury, has announced.

W.C. CLARK

Clip Your Victory Bond Coupons on October 1st.

The Dominion Government will distribute \$2,000,000 in interest upon Canada's \$100,000,000 Victory Bonds on Wednesday, October 1st. What will be your share of this great interest payment? As a holder of bonds of this issue, you are entitled to a share in this interest payment.

UNION BANK OF CANADA

Head Office: 119, 121, 123, 125, 127, 129, 131, 133, 135, 137, 139, 141, 143, 145, 147, 149, 151, 153, 155, 157, 159, 161, 163, 165, 167, 169, 171, 173, 175, 177, 179, 181, 183, 185, 187, 189, 191, Titan Tractors

Ask your neighbor who owns one, just what he thinks of his 10-20 Titan Tractor. The extra amount of plowing done last fall, the new land he was able to put under cultivation during the summer, the complete satisfaction that the tractor has given him, is the best recommendation we can give you. Remember, the Titan is a really a coal-oil burning engine (cheaper fuel), that it runs 500 revolutions per minute (longer life), that its draw bar pull is a horse power more than its rating, (more power), it is backed by the Harvester Co., with its repair system, and their trained agents (the best possible service). And the price (\$1150). Yes that's the price, eleven hundred and fifty dollars. See us about one; we will be glad to demonstrate to you in any way.

On and after this date there will be no grinding done at the Chop Mill until after threshing is over.

MOLINE TRACTORS

Following is a report made by the Department of Agriculture, Engineering of the Ohio State University, 1919.

Among the Tractors that went over its rating by a big margin was the Moline Universal, not only where conditions were good but where they were exceedingly bad.

Ordinarily the Moline is rated 9 H. P. but the average horse power of the two tests, gives 16.08 tests.

THORP BROS. PROPRIETORS

Few Men Desire to Undertake

The proper administration of an Estate is no easy task. If put on the shoulders of an individual, it demands an amount of time and care that few business men can willingly spare from their own affairs; moreover should anything happen to the individual before the Estate is settled, confusion, litigation and delay, with accompanying loss, frequently result. The Trust Company specializing in the administration of property is the logical answer to the question of whom to name as your Executor.

Consult us now about this important matter.

Olds School of Agriculture

EDUCATION-PAYS ON THE FARM

Statistics show that farmers who have had an education make larger incomes than those who have received but little schooling.

An education is more necessary now than it was thirty years ago. Farming has changed greatly in this period. Then, farmers out their grain with a cradle, bound it by hand and threshed it with a flail. They ground their grain between stones and lifted the water out of the well in buckets. They treated their nondescript cattle for "hollow horn" and "wolf in the tail" and planted their grain in the moon. The horse and the ox were their only means of transportation. The farm houses had no conveniences; house were lit with candles; the kitchen equipment consisted largely of hard work.

Now, the farmers have larger farms. They out and bind their grain with binders and thresh with engine driven separators. They frequently plow with tractors and many own automobiles. They select varieties of grain that are known to give larger returns than the ordinary varieties. They treat their seed to control diseases and plant at rates per acre which experience has shown to give maximum yields. They select improved types of breeding animals and feed their stock in accordance with knowledge derived from the chemistry of foods. The farm houses have been greatly improved.

To keep up with the times and to make the most money from the farm, one should know how to farm in accordance with the most improved methods. You can learn these methods at the Olds School of Agriculture. Education pays; you can learn in a few months what it would take years of experience to give you. Talk with any ex-student regarding the value of the course.

Classes in Agriculture and Domestic Science commence on October 20th. For particulars write:

F. S. Grisdale, Principal,

given as 3 to ten bushels per acre secured. Last year all murder cases were delegated to the provincial police, for the reason that most murderers flee to the country districts in an endeavor to evade justice. Since that time several of this class of criminals have been taken and convicted on the evidence of provincial detectives. From a small straggling force, the Alberta Provincial Police, by discipline, training and good leadership, has been built into an organization on which the province may congratulate itself. The credit is equally with the officers and the men.

Normal Weight

Perhaps you are worried because your child does not pick up in weight? Better try

Scott's Emulsion

and watch how it helps make a thin child grow and put on weight. There is nothing quite so strengthening as Scott's Emulsion for a child of any age.

Scott & Borden, Toronto, Ont.

An Appreciation

H. E. Kennedy—Alberta Washington Land Co.

Dear Sir:

I want to express my appreciation of the service you gave me in disposing of my half section at Lochinvar. Your straightforward way of doing business and your prompt service in converting my property into cash, made it very pleasant to do business with both yourself and your client. Thanking you again for your efficient work.

Yours Very Truly

S. C. Archibald.

This is only a sample of the many responses that I receive from both buyer and seller which speak for itself.

H. E. Kennedy.

Dated at the Town of Lacombe, in the Province of Alberta, this 23rd day of September, A. D. 1919.

A. M. MacDonald, Solicitor for the said Administrator, Lacombe, Alberta.

Estay

1 red steer branded 31 (quarter circle under A) on right ribs, right ear out, 7 red cows, milking when lost three weeks ago. No brands. One big cow has both horns turned down into ears and trimmed off. Please notify R. Block, Bentley.

Lost

Black pony mare, aged, shed in front, had chain and halter on when going away, branded R2 with bar over on left shoulder. \$5 reward for information. Finder can leave animal at Thos. Dagg's barn, Lacombe. Wm. Smith.

The New Red Cross Organization

Extract from the Bulletin of the Canadian Red Cross Society—

"Chapter 25 of the revised draft of the Covenant of the League of Nations reads as follows:—

"The members of the League agree to encourage and promote the establishment and co-operation of duly authorized voluntary National Red Cross organizations having as their purposes the improvement of health, the prevention of disease and the mitigation of suffering throughout the world."

"The League of Nations Societies was formed and the Canadian Red Cross Society at once became a member. The purposes of the League are as follows:—

"1. To encourage and promote in every country of the world the establishment and development of a duly authorized voluntary National Red Cross organization having as its purposes the improvement of health, the prevention of disease, and to secure the co-operation of such organizations for these purposes.

"2. To promote the welfare of mankind by furnishing a medium for bringing within the reach of all people the benefits to be derived from present known facts and new contributions to science and medical knowledge and their application.

"3. To furnish a medium of co-ordinating relief work in case of great national or united national calamities."

Important Meet Of Labor Congress

Hamilton, Following closely on the conclusion of the big industrial conference at Ottawa, the Dominion Labor Congress will convene its 5th annual convention in this city, and in spite of the recessionist aspect of the One Big Union idea, and the disintegrating influences of the war, it is expected that the convention will be one of the most important in the history of trade unionism in Canada.

President Tom Moore, of Niagara Falls, Ont., who has been a tower of strength for unionism during the various earlier periods of the war, will be chairman of the gathering. Delegates will be present in force from every corner of the Dominion where organized labor is a factor in industrial activities.

The questions of the eight-hour day, right of collective bargaining, immigration amendments, and other subjects red-hot from the industrial conference will have a prominent place in the program of the convention. Matters of proportional representation in parliamentary elections, reconstruction and soldiers' questions will be up for discussion, and the policy of organized labor on these important issues will be decided upon.

Responsibility for and the effect of the illustrated general strike at Winnipeg will be given consideration. Lessons learned from the metal workers' strike in various parts of the country will be discussed.

The convention, it is expected, will last all week.

Sir Oliver Lodge on Atomic Properties

Hopes We Will Not Know Their Power Yet

Birmingham, Eng.—Sir Oliver Lodge, the eminent scientist, in an address at Midland institute in connection with the memorial ceremony held on the occasion of the one hundredth anniversary of the death of James Watt, inventor of the steam engine, touched upon the subject of atomic properties of matter.

Sir Oliver declared that the first utilization of atomic properties of matter was in wireless telephony. He added that if the atomic energy of an ounce of matter could be utilized it would be sufficient to raise the German ships sunk in the Scapa Flow. He said, however, that he hoped the human race would not discover how to use this energy until it had found a way to use it properly, because if the discovery were made before its time, and by the wrong people, this planet would be unsafe.

Better Pay for Married Minors

Ottawa.—Provision has now been made by the Government for the payment of increased allowances to married minors, who are undergoing training through the vocational branch of the Department of Soldiers' Civil Re-establishment.

The department has been given authority to pay allowances to these minors at similar rates to those paid to men who are granted training or inability to return to previous occupation on account of war disability.

Record Forest Fires

Calgary.—Although the actual figures have not yet been compiled, it is almost certain that the fire this year in the Canadian forest reserves will easily prove to be the record in destruction. Experts are busily engaged at the moment in compiling statistics, and it is expected that these will be made public at an early date.

Japan Denies Ambitions

Morioka, Japan.—In addressing a meeting of the Government party here, Premier Hara said: "Japan has no ambitious designs against China. On the contrary, the ministry is urgently advocating the importance of closer friendly relations. The day will arrive when China will come to comprehend the sincerity of Japan."

Bring Ocean Liners Nearer To West

Ottawa.—Western Canada is vitally interested in a scheme whose feasibility is shortly to be submitted for investigation before the International Joint Commission.

The governments of the United States and Canada are acting jointly in the submission to the commission of an enquiry into the deepening of the St. Lawrence river between Montreal and Lake Ontario to enable ocean-going vessels to proceed to the head of the lake, and also to enquire into the joint development by the two countries of the three million potential horsepower.

If the plan, which is enthusiastically backed by the Senate, carries, it will be possible for ocean-going vessels to go inward by the new Welland canal route 2,100 miles from the gulf. It will cheapen and facilitate the handling of the western crops by reducing freight rates compared with the cost of railway transport, and would also enable freight to be taken for instance to the west of the nation, instead of to the east, for the half million bushels of wheat now stopping at Port Colborne could go to Montreal.

W. J. Stewart, Dominion hydrographer, has been delegated by the Canadian Government to act in conjunction with Colonel Kellogg of the United States War Department, in determining the terms of reference to the commission.

Summary Of The Bulgarian Treaty Next

Part To Follow The Same General Plan As The Austrian Treaty

Washington.—Summary of the Bulgarian treaty of peace, which the State Department by the American mission at Paris, shows the plan to follow the same general plan as the Austrian treaty.

"Many clauses are identical with the Austrian treaty," says the summary, "except for the substitution of names, such as the League of Nations, labor, aerial navigation, penalties, prisoners of war and graves."

Regarding the changes in the Bulgarian frontier, the important changes are to the south, where Bulgaria cedes Western Thrace to the principal allied and associated powers, and agrees to accept whatever disposition of this territory the powers ultimately decide upon, but it is stipulated that in any case Bulgaria's western frontier shall be modified slightly in four places to Serbia's advantage.

The Bulgarians are required to recognize the independence of the Serb, Croat and Slovene states and provisions are made for changing the nationality of the inhabitants of the territory formerly Bulgarian and transferred to other states.

To Have Religion Taught In School

Ontario Provincial Synod Urges That

Biblical Instruction Be Introduced

Ottawa.—Religious instruction in public schools, profecting and questions relating to school welfare were discussed at a session of the Ontario Provincial Synod in Lander Hall.

In the matter of religious instruction, the delegates recommended that: "The council be empowered and instructed to make every effort to secure the operation of other denominations toward the introduction of systematic Biblical and religious instruction into our public schools, scheme, or a modification of it, or in any other way."

Bolsheviki Sympathisers

Union Dockmen Refused To Load

Arms Destined For Siberia

Seattle, Wash.—Business agents of the local longshoremen's union backed off today, by approval of the Central Labor Council, refused to allow longshoremen to load a shipment of arms and munitions destined for Siberia.

The labor agents held that the handling of such material was in violation of labor's past embrace in the peace treaty. A heavy fine and suspension for two months was the penalty threatened for violating the order of the business agents. Frank Waterhouse & Co., operators of a vessel, said the shipment would be loaded.

Austria Will Recover Soon

Vienna.—During the course of a conference with representatives of the provincial governments, the Austrian Minister of Finance, Josef Schumpeter, told them he hoped that within three or four years the equilibrium of the budget would be restored, without bankruptcy, conversion of loans or additional taxation.

Chancellor Renner's "eyes to the west" remark has caused such widespread challenge that he has been obliged to explain that he meant that Austria should turn to France to the exclusion of Germany, but that Austria's hope lay westward rather than to the Slavic countries.

Municipal Milk Scheme

Winnipeg.—Ratepayers of Winnipeg will be asked to vote on a by-law authorizing the expenditure of \$600,000 on a municipal milk scheme at the civic elections on November 28.

This sum, according to R. D. Hughes, the Toronto expert, is enough to establish and operate a fully modern milk and milk product distribution plant. He also recommends the city securing a monopoly by buying out the two large existing companies.

Riga Peace Meeting

Copenhagen.—An important conference has been in session at Riga regarding not only peace with the Soviet government in Russia, but the formation of a Baltic federation, according to advices from Lettish sources. There has been no actual acceptance of the Soviet government's terms, but on the whole, it appears that the Baltic federation has materialized to the extent that an agreement has been reached for a customs union of Lettish and Lithuanian.

Thanks to General Pershing

Washington.—Congress, in behalf of the nation, extended to General John J. Pershing as commander, and through him to his officers and enlisted men of the American expeditionary force, formal expression of the country's gratitude for their "valiant and self-sacrificing service during the war." Business in both houses was suspended for the time so that all members might speak.

Wheat Crop In Alberta

Edmonton, Alberta.—W. F. Stevens, representing the Alberta government in the Great Prairie and Peace River districts, estimates the wheat crop there to be about 8,000,000 bushels. A party of 63, members of the Edmonton Board of Trade, is now touring the districts. A marked change is noted in the policy of the settlers, there being evidence of increasing mixed farming operations.

Rumanians Are Retiring

Budapest.—The Rumanian army has begun to withdraw from Budapest, ready movement of trains in progress. It is believed that the retirement will be completed within a fortnight.

Russian Front Combined

Paris.—Through the capture of Omsk by the anti-Bolshevik forces, communication has been established between the allies on the Archangel and Murmansk coast fronts.

Will Bring Down The High Prices

Reindeer Meat

Stefansson Says Canada Has Finest Climate In The World

Calgary.—"The finest climate in the world is the climate that is conducive to work, not idleness. I hear people praise the southern climate to the detriment of the northern climate. We should never apologize for Canada's climate," said Vilhjalmur Stefansson, explorer, addressing an audience here.

Mr. Stefansson solicited support for his campaign to popularize reindeer raising, telling some amusing facts concerning this industry in the far north, and of the possibilities of the country, saying the northern zone had a great era of civilization before it. Reindeer was produced cheaper than any meat in the world, and brought a higher price today on the market than beef.

Robbery On Mail Train

Masked Men Robbed C.N.R. Express

Quebec.—Five masked men bound and gagged the mail clerks on the Ocean Limited, Canadian National Railway, near Harlaks, and robbed the mail of \$75,000 in silver, which had been shipped from Montreal for Halifax.

The Ocean Limited does not stop after it leaves Lewisville Harlaks is reached. At Harlaks the train had nearly pulled out, according to the mail clerk foreman when the back door of the mail door was crashed in and the five masked men, pointing automatics into the faces of the mail clerk foreman and the clerks, then made a dash to the bags containing the money. At St. Thomas the bandits escaped as the train slowed down. It is believed that they had an automobile hidden in the bushes.

Irish Daily Newspaper

Cork Examiner Accepted Announcement For Prospectus Of Irish Loan

Dublin.—The determination of the authorities to repress all manifestations of republican activities is shown by the suppression of the Cork Examiner, one of Ireland's chief daily newspapers.

Ten Regiments

To Defend Fiume

Italian Nationalists, Although Suppressed, Are Still Aiding In Movement

Rome.—D'Annunzio's force, consists of ten regiments, in addition to four battalions of Fiume volunteers. The citizens are supporting D'Annunzio, the newspaper adds, and are determined to destroy the town should resistance prove impossible.

Allies' Demand Agreed To

Austrians Cannot Participate In German Parliament Or Government Affairs

Paris.—The written declaration concerning Article 61 of the German constitution demanded by the Allies is reported in a Berlin dispatch to have been signed by the German government. The declaration requested was that the article in question, relating to Austrian representation in the German parliament, was not to be considered as transcending the action of the peace treaty forbidding German participation in Austrian affairs.

Kingston Editor Goes To Saskatoon

Kingston, Ont.—J. C. Cornwall Elliott has retired from the Whig editorial staff to accept the position of assistant to Prof. W. Swanson, head of the department of political science in the University of Saskatchewan, at Saskatoon.

Marshals Foch Lost Only Son

Paris.—Marshal Foch has recently asked the Belgian government to have a search made for the body of his son who was killed in August, 1914, in the Belgian Ardennes.

Marshal Foch has religiously refrained from mentioning his lost son, and few knew that the younger Foch was killed earlier in the war.

Lone Bandit's Deed

Lewistown, Mont.—A lone bandit, unnamed, shot a gun in either hand, and fled to the Buffalo State Bank, escaping with more than \$600. Several posers are now searching for the outlaw.

To Try Kaiser

London.—The Solicitor-General, Sir Gordon Hewart, has completed the case for the prosecution of the former German emperor, according to the Mirror. The place for the trial has not yet been settled.

Radical Step In Government Probe

Million Pounds Of Bacon In Storage

W. F. O'Connor Anxious To Know If Price Cannot Be Lowered

Toronto.—W. F. O'Connor, K.C., vice-chairman of the board of Commerce, proposes that Canadian consumers of bacon shall have an opportunity to get in some of the bacon which have been exported to the old country and sold at comparatively low prices. He intimated, after E. C. Fox, general manager of the Williams Davies company, and J. A. Nelson, superintendent of the Davies' retail stores in Toronto, have given evidence, that a millions pounds of this commodity is at present locked up in the Davies plant, awaiting a day on which the English consumer has used up the supply of Welsh sides he has on hand, would be called for home consumption.

To Mr. Fox's explanation that this was inferior bacon to that sold in Canada, and was sold at less cost in consequence, Mr. O'Connor wanted to know if it were not possible to sell the cheaper bacon in Canada. "We have come to the stage," he declared, "where the other bacon is too expensive."

Mr. Fox said the Canadians would not buy the cheaper bacon that was sent to England.

"It may be worth while to test with this million pounds to see if you have difficulty in disposing of it," retorted Mr. O'Connor.

"Certainly we would be glad to try it," he added.

The commissioner told Mr. Fox that the Canadian consumer was not getting a square deal when his bacon cuts were regulated by European famine prices. "Personally," he said, "I think it would be a good thing in Canada for the consumer to control to say to the producers of bacon, 'You have got to supply your Canadian trade at fair prices before we allow you to forfeit that stuff out of the country.'"

Mr. Fox repeatedly denied that the Williams Davies' company was interested in any packers' combine. "Then why is it," asked Lieut.-Col. Price, counsel for the board in the enquiry, "that the prices remain about the same for one week in the stockyards?"

"I suppose because we all know about what the other fellow is doing and we all have the same selling margin," was Mr. Fox's reply.

Mr. Fox promised to produce a detailed statement of information as to costs, selling prices and profits.

Superintendent Nelson, of the Davies company, said his efforts were directed toward keeping prices down and getting the volume of business. "The higher the selling price of any commodity, the less his concern could make out of it," he said.

At the conclusion of Mr. Nelson's testimony, Commissioner O'Connor said: "You have undertaken to say that you are not making any profit. We will find out what the profit is before we are done here."

Mackenzie King's Service In War

Ottawa.—Hon. W. L. Mackenzie King, Liberal leader, in his address before the industrial conference, explained the workings of the Rockefeller plan. Mr. King started to refer to wartime production of coal in the United States, and branched off to say: "I am not unmindful of what has been said of my war service. Some day I shall tell the people what I was trying to do for the allies, but this is not the time."

To Test Market

New York.—Carrying 350 tons of toys, glassware and sugar beet seed, the Kerr line steamer Jason arrived here from Hamburg with the first cargo shipment from Germany since the war. The Jason is a supply ship for the Hoover food administration.

Food Prices Drop In United States

Washington.—Reports to the Department of Justice from thirteen states indicate that there has been a decline of 10 to 15 per cent in food prices since the time the fair price commissions began their work. From four states have come reports on wholesale prices indicating a decline of from two to five per cent.

Virtually no reductions in clothing prices have been noted.

To Allay Unrest

Less Likelihood Of A Railway Strike Among Shopmen

Toronto.—There is little likelihood of labor trouble among the railroad shopmen on the Canadian railroads, according to J. Clarke, schedule representative of Canadian railroads for the International Union of Boiler Makers, the headquarters of which are in Kansas City.

Mr. Clarke is in Toronto at present to allay unrest among railroad shopmen, who are uneasy because of the delay in dealing with their grievances, which came before the Canadian Railway Board in May and were deferred until the demands of the United States railway workers were satisfactorily settled.

An Irish philosopher says it's all right to make hay while the sun shines, provided it is clouded.

Winning—Haltting Its Proceedings

In the middle of an examination of the T. J. Coyle & Co. case, the Commerce court halted the proceedings to the firm's office, and took charge of all telegrams, telephone records and correspondence showing the basis of transactions between the brokerage firm and twelve creameries in Montreal and Saskatchewan.

Public explanation of the case was made. Harry Whitlaw, K.C., representing the Dominion Government in the probe, ordered the seizure of the records.

The sensational move, not the suddenness with which it was executed, provoked animated discussion all over the city. It marks the first radical step by the Robson board, and is said to be the first of a series of moves in a similar direction touching such handling of necessities of life. The firm is composed of T. J. Coyle and A. M. Cameron, of Montreal. Coyle is absent in Seattle, and his stenographer has been testifying before the board, concerning the manner in which the company handled the butter products of all the creameries. She did not think they agreed on a price. Her company never saw the butter, but received orders and wired them to the various creameries who shipped, the Coyle firm receiving a commission. Whitlaw attempted to show that Coyle set the price for all creameries in the two provinces. It has been charged repeatedly that a creamery combine in restraint of trade exists here.

Russian Rifles Shipment

Kolchak Government May Never Get Munitions If Unseen Men

Seattle.—What action is to be taken in regard to loading 45 carloads of rifles for the Kolchak government of Siberia aboard a steamer, now awaiting word from the shipping board in Washington, D.C., is a subject which has been referred to handle the shipment and the vessel operators have requested the shipping board for instructions.

Wonderful Wireless Tests

New London, Conn.—Radio experiments made by New London, in Long Island Sound by the experimental station, naval section, established communication, both, telephone and telegraph, between a hydroplane flying nearly 2,000 feet in the air and a submerged submarine several fathoms in the water.

Death Of W. C. Gurney

Toronto.—W. C. Gurney, president and general manager of the Gurney Foundry Company, Limited, died from heart failure while in the office of his physician. He was a son of the late Edward Gurney, founder of the Gurney Foundry Company, whom he succeeded in the presidency of the company, and was in his 46th year.

British Profiteers Seared

London.—The profiteering act, despite its defects, seems to have had a rapid fruitfulness effect, for prices have already dropped in several districts.

Some local bodies refuse to appoint commissions to administer the act locally, but the refusal is generally followed by indignant protests from the inhabitants.

Soldiers Are Homeless

London.—Houseless ex-soldiers at Newport, Monmouthshire, interrupted the borough council meeting by protesting from the gallery. There were they claimed 600 homeless families in the town. Liverpool corporation is spending £2,000 in converting army huts into private dwellings. Other local authorities are also attracted by this temporary solution.

Veterans' Banquet and Reception.

Arrangements are now completed for the Banquet and Reception to our returned men, to be held at the Adelphi Hotel and Veteran Theatre on Thursday evening. From present indications there will be a record crowd, as every one has entered into the spirit of the affair with great enthusiasm. A little misunderstanding has arisen in connection with the invitations. Those who have received invitations as guests of the evening will please understand that they are admitted free to both functions. No invitations are issued to anyone but soldiers and their families; anyone else wishing to attend is cordially invited to do so, and tickets may be obtained at \$5.00 per couple, or \$2.50 for individuals.

Death of G. G. Mobley

George Gale Mobley one of Lacombe's old time citizens died at the hospital in Kamloops, B. C. on the 9th inst., after several months' illness. Deceased was a native of Ohio, being born in Washington Co. in January, 1845. Mr. Mobley with his family, lived in Lacombe for over 20 years, removing in 1918 to Tappen, B. C. He leaves a wife and family of grown-up children to mourn his demise.

St Cyprians' Church

Sunday, Sept. 28th at 11 a.m. and 7.30 p.m., Sunday School at 12 noon. Harvest Thanksgiving services at Milton School at 4 p.m.

Wanted

A competent stenographer desired position in bank or office. Educated in the Vancouver Sprott and Shaw Business College. For further particulars apply Lacombe Globe or phone 1009.

Residence for Sale

One of the most comfortable residences in Lacombe can be bought at a snap if taken at once. The house is newly built and in first class condition. Good water, on the premises. If you are interested call at the Western Globe Office for particulars. The owner wants to leave town soon, and this is a chance for someone wishing to secure a good home at a reasonable price.

Hay For Sale

30 tons of wild and timothy mixed, 1 1/2 miles from Lacombe. B. F. Bailey, Adelphi Hotel.

The Sugar Situation

Sugar is still a scarce commodity in Lacombe and surrounding country, and while little that is available is selling around 4 c. a pound. This appears to be a very high price, but when it is considered that the local retailers are paying about 13c. a pound wholesale, and have the work and expense of putting it up for their customers in packages of two to five pounds, this price is below the actual cost. Where the graft is coming in is with the manufacturers, and no attempt has been made by the great food controllers to bring the manufacturer to time. As usual, the food control man starts at the wrong end of the thing, and leaves the idea that the retailer is the robber in the mind of the consumer. It would be a very small job for the government to compel the sugar refiners to supply Canada with sugar first, but they are allowed to ship their output to the U.S.A. and give Canada what is left over. If the government is going to continue the alleged fight for lower prices of necessities, men other than lawyers and doctors should be placed in charge of the affair. Get some real businessmen on the job, and see if they can bring results.

H. Johnson's Sale

Hans Johnson, four and a half miles S. E. of Leasideville and seven and a half miles N.W. of Eckville, will hold a sale of all his farm stock and implements on Monday, September 29, with C. F. Dameron, in charge. He is selling 8 splendid young horses, a fine bunch of good cattle, and a full line of implements and household goods. See bills for full particulars and be sure and attend, as there will be no reserve.

Sam Louis Robbed

Sam Louis, the genial Chinese washerman, sustained a very severe loss on Friday morning last. On going to bed Thursday night Samuel was the possessor of \$250 in real Canadian money, which was safely cached in a trunk under his bed. In the wee sma' hours before dawn, some one evidently aware of the location of Sam's Bank roll, entered his bedroom and took the trunk out into the back yard and opened it, making away with the cash. The police are on the job, but so far have no clue to the thief.

A Timely Warning

Farmers would be well advised to exercise caution in threshing their grain this season. There should be a lot of C.W. oats in the district, and there is likely to be a considerable spread between C. W. and lower grades. Frosted oats, no matter what weight or how clean, are barred from the 2 C.W. grade, therefore it should pay to see that all the oats that are cut before the frost are threshed separately from those cut since. Be sure the grain is absolutely dry before threshing. Stacked grain always gives the best results.

Serious Accident.

A man named Brown, who is engaged on the railway near Joffre, was brought in to the Lacombe hospital on Monday suffering from a badly shattered arm. He had taken his gun down to shoot a hawk, and after putting in the shells a door slammed and struck the gun, both barrels exploding. His arm is badly mangled, and at the present writing it is not known whether or not amputation will be necessary.

Children's Glasses

If your child complains of headaches or painful vision, now is the time to have its eyes examined. School work makes extra strain on the weakened eyes.

We make a specialty of fitting Children's glasses and use the utmost care in each case.

In the critical period of school life, many children suffer from eye defects, which a little care and attention would easily remove.
